

TYPICAL POST AND RAIL FENCE

NOTES:

1. As a minimum, post and rails must be dressed seasoned hardwood with a Natural Durability Class of 2 or better.
2. All timber must be straight, clean and free of defects.
3. Concrete footings shall be nominally 500mm X 500mm in width and 750mm in height. Concrete footings must be 25Mpa as a minimum and include a gentle splay (MIN 30 degrees) away from the upright.
4. Timber post and rails must be painted or stained with reapplication every 18 months or as required.
5. Maximum spacing between posts is 2400mm.
6. End posts - 200mm x 200mm
Intermediate posts - 150mm x 150mm
Rails - 200mm x 50mm

NOTE: This detail shall supersede the Melbourne Water Standard Drawing (7251/8/206) for a safety barrier around ponds and wetlands.
