Applicant Signature.....

Works in Road Reserve Permit required for:

Nature Strip Modification

This application will be processed on the understanding that the following steps are undertaken prior to modification of the nature strip:

- The permit has been issued.
- If renting you have gained the approval of the property owner or management body.
- You understand and have taken into account the requirements of Council's Urban Nature Strip Guidelines.
- You have considered:
 - The suitability of your design.
 - Consistency of the planned modification with neighbourhood character.
 - Your ability to maintain the modified nature strip now and in the future.
- You have checked with Dial Before You Dig

Do not submit payment with application form. When permit has been issued the Engineering and Transportation Department will contact you in relation to payment and collection of permit.

Please Note: The permit is valid for 90 days from the date of issue and will not be extended past its expiry date.
